

job level pr pool set hota hai vo pipeline level wale pool ko override kar deta hai...

Lekin agar kisi job me koi pool nahi dia hai toh vo job pipeline level wale pool pr chl jata hai...

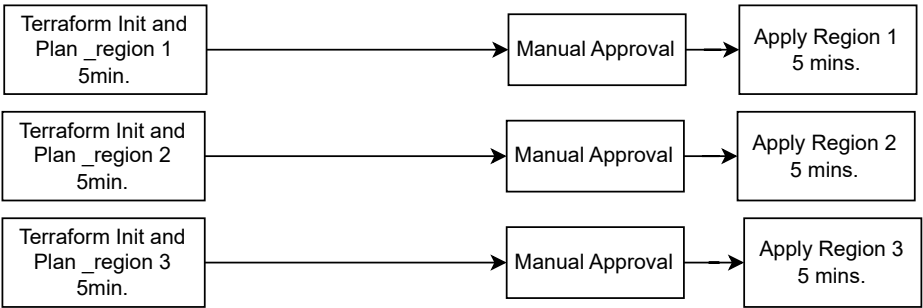

Parallelism in Pipelines? - Running multiple jobs simultaneously. jab pehla aur dusra job ke beech me dependency nahi hoga.

How to enable this?

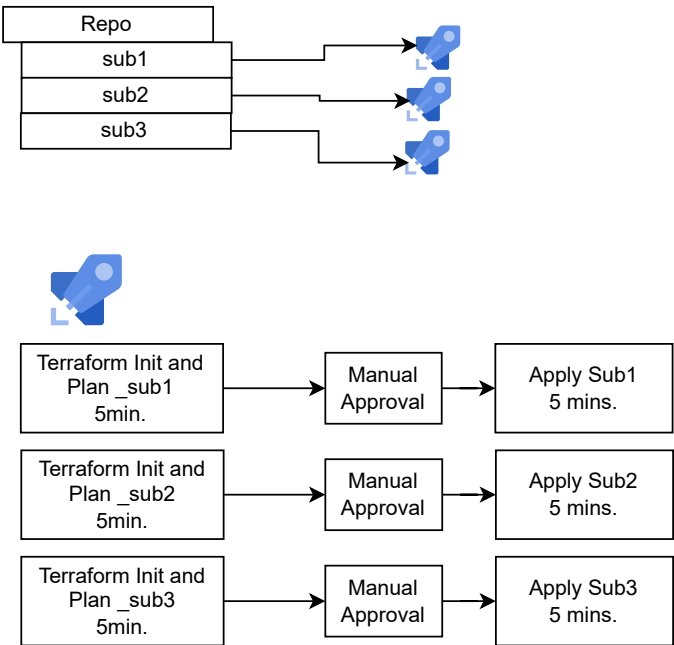

Advantages of parallel jobs?

Multi Region Infra Deployment with Terraform

Multi Subscription Infra Deployment with Terraform
